

WITTE ROAD PHASE 3 COMMERCIAL DISTRICT IMPROVEMENTS OPEN HOUSE

The City of Maple Valley is preparing construction plans for the Phase 3 Witte Road Improvements for the section between SE 240th Street and the Maple Valley-Black Diamond Road (State Route 169). The road design will be completed in 2014 and construction is anticipated to begin in early 2015.

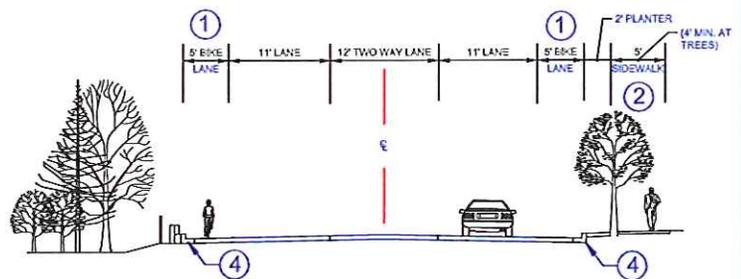

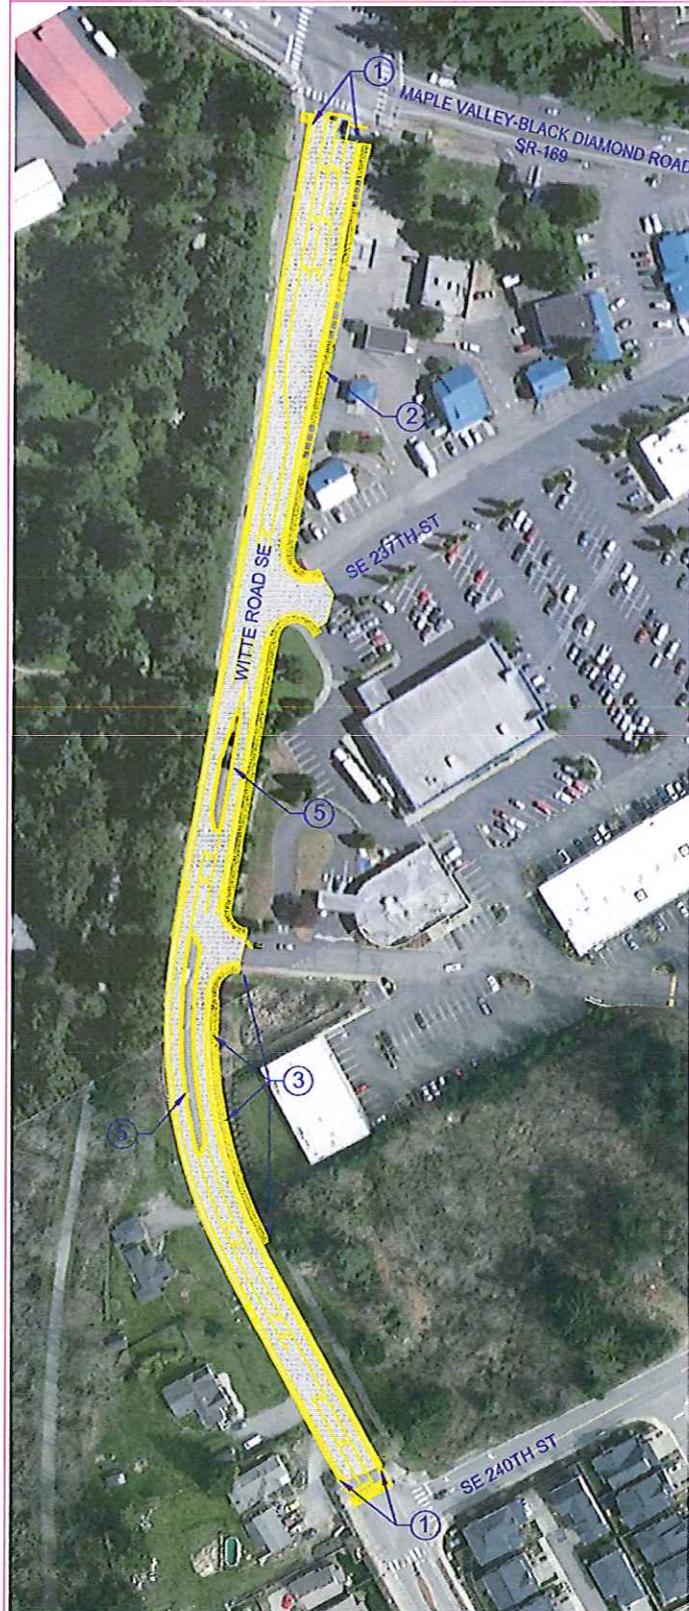

Project improvements include the following (see plan view to the left):

1. Bike lanes (both sides of road)
2. Sidewalk access from SE 240th St to SR-169 (east side)
3. Sight distance enhancements and improved channelization
4. New curb & gutter, pavement and road markings
5. Landscaped center islands

In addition to these major upgrades, the project will also include street trees, street lights, and pollutant removal from storm water runoff using current technologies that meet federal, state and local water quality requirements.

To find out more about this project, please join us at the Lake Wilderness Lodge on Tuesday June 24, from 5 to 7 pm:

Lake Wilderness Lodge
